SUBJECT INDEX

HEARING

NATURE OF HEARING AND ITS DISORDERS

Normal Auditory Systems

Bone conduction threshold levels for different bone vibrator types. Frank, T., Byrne, D. C., & Richards, L. A. Aug. 1988, 295-301.
Correlations between hearing thresholds and caloric responses among a heterogeneous sample of dizzy patients. Formby, C., Hixson-Robles, C., & Singleton, G. T. Feb. 1988, 65-70.
Longitudinal changes in auditory discrimination in normal children and children with language-learning problems. Elliott, L. L., & Hammer, M. A. Nov. 1988, 467-474.
Tympanometry. Shanks, J. E., Lilly, D. J., Margolis, R. H., Wiley, T. L., & Wilson, R. H. Nov. 1988, 354-377.

Auditory and Other Otic Pathologies

Correlations between hearing thresholds and caloric responses among a heterogeneous sample of dizzy patients. Formby, C., Hixson-Robles, C., & Singleton, G. T. Feb. 1988, 65-70.
Ipsilateral acoustic-reflex adaptation testing for detection of facial-nerve pathology: Three case studies. Silman, S., Silverman, C. A., Gelfand, S. A., Lutolf, J., & Lynn, D. J. Nov. 1988, 378-382.
Longitudinal changes in auditory discrimination in normal children and children with language-learning problems. Elliott, L. L., & Hammer, M. A. Nov. 1988, 467-474.
Otitis media and language development at 1 year of age. Wallace, I. F., Gravel, J. S., McCarton, C. M., & Ruben, R. J. Aug. 1988, 245-251.
Tympanometry. Shanks, J. E., Lilly, D. J., Margolis, R. H., Wiley, T. L., & Wilson, R. H. Nov. 1988, 354-377.

Hearing Loss and Deafness

Acquisition of spoken and signed English by hearing-impaired children of hearing-impaired or hearing parents. Geers, A. E., & Schick, B. May 1988, 136-143.

Correlations between hearing thresholds and caloric responses among a heterogeneous sample of dizzy patients. Formby, C., Hixson-Robles, C., & Singleton, G. T. Feb. 1988, 65-70.

Efficacy of a distinctive feature model of therapy for hearing-impaired adolescents. Subtelny, J., & Snell, K. B. May 1988, 194-201.

Performance Inventory for Profound and Severe Loss (PIPSL). Owens, E., & Raggio, M. Feb. 1988, 42-56.

Prelinguistic vocalizations of hearing-impaired and normally hearing subjects: A comparison of consonantal inventories. Stoel-Gammon, C. Aug. 1988, 302-315.

The prevalence of stuttering in the hearing-impaired school age population. Montgomery, B. M., & Fitch, J. L. May 1988, 131-135.

Specialized cognitive function and reading achievement in hearing-impaired adolescents. Craig, H. B., & Gordon, H. W. Feb. 1988, 30-41.

ASSESSMENT OF HEARING

Psychoacoustics

Bone conduction threshold levels for different bone vibrator types. Frank, T., Byrne, D. C., & Richards, L. A. Aug. 1988, 295-301.

Acoustical Instruments, Measurements, and Standards

Bone conduction threshold levels for different bone vibrator types. Frank, T., Byrne, D. C., & Richards, L. A. Aug. 1988, 295-301.

Screening

Infant tympanometry: Differential results by race. Robinson, D. O., Allen, D. V., & Root, L. P. Aug. 1988, 341-346.

Diagnostic Audiology—General

Correlations between hearing thresholds and caloric responses among a heterogeneous sample of dizzy patients. Formby, C., Hixson-Robles, C., & Singleton, G. T. Feb. 1988, 65-70.

A critique of continuous discourse tracking as a test procedure. Tye-Murray, N., & Tyler, R. S. Aug. 1988, 226-231.

Performance Inventory for Profound and Severe Loss (PIPSL). Owens, E., & Raggio, M. Feb. 1988, 42-56.

Specific Diagnostic Techniques and Approaches

ACOUSTIC IMMITTANCE

Infant tympanometry: Differential results by race. Robinson, D. O., Allen, D. V., & Root, L. P. Aug. 1988, 341-346.

Ipsilateral acoustic-reflex adaptation testing for detection of facial-nerve pathology: Three case studies. Silman, S., Silverman, C. A., Gelfand, S. A., Lutolf, J., & Lynn, D. J. Nov. 1988, 378-382.

Tympanometry. Shanks, J. E., Lilly, D. J., Margolis, R. H., Wiley, T. L., & Wilson, R. H. Nov. 1988, 354-377.

BEHAVIORAL

Correlations between hearing thresholds and caloric responses among a heterogeneous sample of dizzy patients. Formby, C., Hixson-Robles, C., & Singleton, G. T. Feb. 1988, 65-70.

Performance Inventory for Profound and Severe Loss (PIPSL). Owens, E., & Raggio, M. Feb. 1988, 42-56.

BONE CONDUCTION

Bone conduction threshold levels for different bone vibrator types. Frank, T., Byrne, D. C., & Richards, L. A. Aug. 1988, 295-301.

PEDIATRIC

Infant tympanometry: Differential results by race. Robinson, D. O., Allen, D. V., & Root, L. P. Aug. 1988, 341-346.

SPEECH

A critique of continuous discourse tracking as a test procedure. Tye-Murray, N., & Tyler, R. S. Aug. 1988, 226-231.

Longitudinal changes in auditory discrimination in normal children and children with language-learning problems. Elliott, L. L., & Hammer, M. A. Nov. 1988, 467-474.

INTERVENTION

Habilitation, Rehabilitation, and Education

A critique of continuous discourse tracking as a test procedure. Tye-Murray, N., & Tyler, R. S. Aug. 1988, 226-231.

Efficacy of a distinctive feature model of therapy for hearing-impaired adolescents. Subtelny, J., & Snell, K. B. May 1988, 194-201.

An evaluation of recent trends in preschool programming for hearing-impaired children. Musselman, C. R., Lindsay, P. H., & Wilson, A. K. Feb. 1988, 71-88.

Performance Inventory for Profound and Severe Loss (PIPSL). Owens, E., & Raggio, M. Feb. 1988, 42-56.

COCHLEAR IMPLANTS

A critique of continuous discourse tracking as a test procedure. Tye-Murray, N., & Tyler, R. S. Aug. 1988, 226-231.

COGNITIVE ASSESSMENT

Specialized cognitive function and reading achievement in hearing-impaired adolescents. Craig, H. B., & Gordon, H. W. Feb. 1988, 30-41.

DIZZINESS

Correlations between hearing thresholds and caloric responses among a heterogeneous sample of dizzy patients. Formby, C., Hixson-Robles, C., & Singleton, G. T. Feb. 1988, 65-70.

PERCEPTION OR DISCRIMINATION OF SPEECH SYLLABLES

Longitudinal changes in auditory discrimination in normal children and children with language-learning problems. Elliott, L. L., & Hammer, M. A. Nov. 1988, 467-474.

LANGUAGE

NATURE OF NORMAL LANGUAGE

Language Development

Normal language skills and normal intelligence in a child with de Lange syndrome. Cameron, T. H., & Kelly, D. P. May 1988, 219-222.

Proportional and functional analogical reasoning in normal and language-impaired children. Nippold, M. A., Erskine, B. J., & Freed, D. B. Nov. 1988, 440-448.

Responses to requests for clarification by linguistically normal and language-impaired children in conversation. Brinton, B., Fujiki, M., & Sonnenberg, E. A. Nov. 1988, 383-391.

Language Use in Adults

Referential communication by aphasic and nonaphasic adults. Busch, C. R., Brookshire, R. H., & Nicholas, L. E. Nov. 1988, 475-482.

Language Differences and Different Languages

Acquisition of spoken and signed English by hearing-impaired children of hearing-impaired or hearing parents. Geers, A. E., & Schick, B. May 1988, 136-143.

LANGUAGE DISORDERS

Aphasia and Other Adult Language Disorders

Comprehension of monologues and dialogues by aphasic listeners. Katsuki-Nakamura, J., Brookshire, R. H., & Nicholas, L. E. Nov. 1988, 408-415.

Patterns of discourse cohesion and coherence in Alzheimer's disease. Ripich, D. N., & Terrell, B. Y. Feb. 1988, 8-15.

Referential communication by aphasic and nonaphasic adults. Busch, C. R., Brookshire, R. H., & Nicholas, L. E. Nov. 1988, 475-482.

Variations in aphasic language behaviors. Glosser, G., Wiener, M., & Kaplan, E. May 1988, 115-124.

Language Disorders in Children

Acquisition of spoken and signed English by hearing-impaired children of hearing-impaired or hearing parents. Geers, A. E., & Schick, B. May 1988, 136-143.

Communication breakdowns in normal and language learning-disabled children's conversation and narration. MacLachlan, B. G., & Chapman, R. S. Feb. 1988, 2-7.

An evaluation of recent trends in preschool programming for hearing-impaired children. Musselman, C. R., Lindsay, P. H., & Wilson, A. K. Feb. 1988, 71-88.

Longitudinal changes in auditory discrimination in normal children and children with language-learning problems. Elliott, L. L., & Hammer, M. A. Nov. 1988, 467-474.

Object transformations in the play of language-impaired children. Terrell, B. Y., & Schwartz, R. G. Nov. 1988, 459-466.

Otitis media and language development at 1 year of age. Wallace, I. F., Gravel, J. S., McCarton, C. M., & Ruben, R. J. Aug. 1988, 245-251.

Patterns of language comprehension deficit in abused and neglected children. Fox, L., Long, S. H., & Langlois, A. Aug. 1988, 239-244.
Phonological and spatial processing abilities in language- and reading-impaired children. Kamhi, A. G., Catts, H. W., Mauer, D., Apel, K., & Gentry, B. F. Aug. 1988, 316-327.
Proportional and functional analogical reasoning in normal and language-impaired children. Nippold, M. A., Erskine, B. J., & Freed, D. B. Nov. 1988, 440-448.
Responses to requests for clarification by linguistically normal and language-impaired children in conversation. Brinton, B., Fujiki, M., & Sonnenberg, E. A. Nov. 1988, 383-391.

Learning Disabilities

Communication breakdowns in normal and language learning-disabled children's conversation and narration. MacLachlan, B. G., & Chapman, R. S. Feb. 1988, 2-7.
Longitudinal changes in auditory discrimination in normal children and children with language-learning problems. Elliott, L. L., & Hammer, M. A. Nov. 1988, 467-474.
Phonological and spatial processing abilities in language- and reading-impaired children. Kamhi, A. G., Catts, H. W., Mauer, D., Apel, K., & Gentry, B. F. Aug. 1988, 316-327.

Language Disorders in Mental Retardation

Establishment of symbolic communication in persons with severe retardation. Romski, M. A., Sevcik, R. A., & Pate, J. L. Feb. 1988, 94-107.
Normal language skills and normal intelligence in a child with de Lange syndrome. Cameron, T. H., & Kelly, D. P. May 1988, 219-222.

ASSESSMENT AND INTERVENTION

Screening

Fluharty Preschool Speech and Language Screening Test: Analysis of construct validity. Simmons, J. O. May 1988, 168-174.

Assessment

An evaluation of recent trends in preschool programming for hearing-impaired children. Musselman, C. R., Lindsay, P. H., & Wilson, A. K. Feb. 1988, 71-88.
Object transformations in the play of language-impaired children. Terrell, B. Y., & Schwartz, R. G. Nov. 1988, 459-466.
Referential communication by aphasic and nonaphasic adults. Busch, C. R., Brookshire, R. H., & Nicholas, L. E. Nov. 1988, 475-482.

Intervention

Establishment of symbolic communication in persons with severe retardation. Romski, M. A., Sevcik, R. A., & Pate, J. L. Feb. 1988, 94-107.
Improving the social-conversational skills of developmentally delayed children: An intervention study. Girolametto, L. E. May 1988, 156-167.

Nonspeech Communications Systems

Establishment of symbolic communication in persons with severe retardation. Romski, M. A., Sevcik, R. A., & Pate, J. L. Feb. 1988, 94-107.
An evaluation of recent trends in preschool programming for hearing-impaired children. Musselman, C. R., Lindsay, P. H., & Wilson, A. K. Feb. 1988, 71-88.

LANGUAGE AND READING

Cohesion in the narratives of good and poor readers. Norris, J. A., & Bruning, R. H. Nov. 1988, 416-424.

SPEECH

NATURE OF NORMAL SPEECH

Development of Speech and Voice

Developmental phonology: 18–29 months. Preisser, D. A., Hodson, B. W., & Paden, E. P. May 1988, 125-130.
Identification of correct and misarticulated semivowels. Chaney, C. Aug. 1988, 252-261.
Phonetic inventories of 2- and 3-year-old children. Dyson, A. T. Feb. 1988, 89-93.
Prelinguistic vocalizations of hearing-impaired and normally hearing subjects: A comparison of consonantal inventories. Stoel-Gammon, C. Aug. 1988, 302-315.
Reply to "Questions about oropharyngeal motor development in young children." Robbins, J., & Klee, T. Nov. 1988, 485-486.

Perception of Speech

Efficacy of a distinctive feature model of therapy for hearing-impaired adolescents. Subtelny, J., & Snell, K. B. May 1988, 194-201.
Identification of correct and misarticulated semivowels. Chaney, C. Aug. 1988, 252-261.
Listeners' perceptions of consonants produced by esophageal and tracheoesophageal talkers. Doyle, P. C., Danhauer, J. L., & Reed, C. G. Nov. 1988, 400-407.
Longitudinal changes in auditory discrimination in normal children and children with language-learning problems. Elliott, L. L., & Hammer, M. A. Nov. 1988, 467-474.
Perception and production of the final /s-ts/ contrast in Dutch by misarticulating children. Raaymakers, E. M. J. A., & Crul, Th. A. M. Aug. 1988, 262-270.

SPEECH AND VOICE DISORDERS

Articulation and Resonance Disorders

Acoustic phonetic effects of two types of verbal feedback in dysarthric subjects. Till, J. A., & Toye, A. R. Nov. 1988, 449-458.
Developmental phonology: 18–29 months. Preisser, D. A., Hodson, B. W., & Paden, E. P. May 1988, 125-130.
The effects of three feedback modes on the ability of normal geriatric individuals to match speaking rate. Hyland, J. D., & Weismer, G. Aug. 1988, 271-279.
Efficacy of a distinctive feature model of therapy for hearing-impaired adolescents. Subtelny, J., & Snell, K. B. May 1988, 194-201.
Evaluating the treatment effect of repeated probes. Winner, M., & Elbert, M. May 1988, 211-218.
A follow-up study of children with phonologic disorders of unknown origin. Shriberg, L. D., & Kwiatkowski, J. May 1988, 144-155.
Identification of correct and misarticulated semivowels. Chaney, C. Aug. 1988, 252-261.
Otitis media in early childhood and its relationship to later phonological development. Roberts, J. E., Burchinal, M. R., Koch, M. A., Footo, M. M., & Henderson, F. W. Nov. 1988, 424-432.
Perception and production of the final /s-ts/ contrast in Dutch by misarticulating children. Raaymakers, E. M. J. A., & Crul, Th. A. M. Aug. 1988, 262-270.
Prelinguistic vocalizations of hearing-impaired and normally hearing subjects: A comparison of consonantal inventories. Stoel-Gammon, C. Aug. 1988, 302-315.
Speech production following partial glossectomy. Fletcher, S. G. Aug. 1988, 232-238.
Within-clinic versus outside-of-clinic self-monitoring of articulation to promote generalization. Koegel, R. L., Koegel, L. K., Van Voy, K., & Ingham, J. C. Nov. 1988, 392-399.

Craniofacial and Other Anomalies

Questions about oropharyngeal motor development in young children. Dworkin, J. P., & Culatta, R. Nov. 1988, 483-485.

Physiologically Based Speech Disorders

The effects of three feedback modes on the ability of normal geriatric individuals to match speaking rate. Hyland, J. D., & Weismer, G. Aug. 1988, 271-279.
Listeners' perceptions of consonants produced by esophageal and tracheoesophageal talkers. Doyle, P. C., Danhauer, J. L., & Reed, C. G. Nov. 1988, 400-407.
Long-term treatment of severe dysarthria: A case study. Simpson, M. B., Till, J. A., & Goff, A. M. Nov. 1988, 433-440.
Nasal consonants in esophageal speech. Miller, W. L., & Hamlet, S. L. Feb. 1988, 108-111.
Speech production following partial glossectomy. Fletcher, S. G. Aug. 1988, 232-238.
Speech segment durations produced by healthy and asthmatic subjects. Lee, L., Chamberlain, L. G., Loudon, R. G., & Stemple, J. C. May 1988, 186-193.

Stuttering and Other Fluency Disturbances

Dysfluency isn't always stuttering. Culatta, R., & Leeper, L. Nov. 1988, 487-488.
Inexact use of "disfluency" and "dysfluency" in stuttering research. Quesal, R. W. Aug. 1988, 349-350.
The prevalence of stuttering in the hearing-impaired school age population. Montgomery, B. M., & Fitch, J. L. May 1988, 131-135.
Response to Quesal: Terminology in stuttering research. Bernstein Ratner, N. E. Aug. 1988, 350-351.
Science and communication disorders: A reply to Bloodstein. Siegel, G. M. Aug. 1988, 348-349.

Science in communication disorders: Letter to the editor. Bloodstein, O. Aug. 1988, 347-348.

Voice and Other Laryngeal Disorders

Acoustic and perceptual measurements of roughness influencing judgments of pitch. Wolfe, V. I., & Ratusnik, D. L. Feb. 1988, 15-22.

Description of laryngeal pathologies by age, sex, and occupation in a treatment-seeking sample. Herrington-Hall, B. L., Lee, L., Stemple, J. C., Niemi, K. R., & McHone, M. M. Feb. 1988, 57-64.

Factors associated with dysphonia in high school cheerleaders. Campbell, S. L., Reich, A. R., Klockars, A. J., & McHenry, M. A. May 1988, 175-185.

Listeners' perceptions of consonants produced by esophageal and tracheoesophageal talkers. Doyle, P. C., Danhauer, J. L., & Reed, C. G. Nov. 1988, 400-407.

Nasal consonants in esophageal speech. Miller, W. L., & Hamlet, S. L. Feb. 1988, 108-111.

Tone in Thai alaryngeal speech. Gandour, J., Weinberg, B., Petty, S. H., & Dardarananda, R. Feb. 1988, 23-29.

ASSESSMENT AND INTERVENTION

Screening

Factors associated with dysphonia in high school cheerleaders. Campbell, S. L., Reich, A. R., Klockars, A. J., & McHenry, M. A. May 1988, 175-185.

Fluharty Preschool Speech and Language Screening Test: Analysis of construct validity. Simmons, J. O. May 1988, 168-174.

Assessment

Acoustic and perceptual measurements of roughness influencing judgments of pitch. Wolfe, V. I., & Ratusnik, D. L. Feb. 1988, 15-22.

Developmental phonology: 18–29 months. Preisser, D. A., Hodson, B. W., & Paden, E. P. May 1988, 125-130.

Efficacy of a distinctive feature model of therapy for hearing-impaired adolescents. Subtelny, J., & Snell, K. B. May 1988, 194-201.

Evaluating the treatment effect of repeated probes. Winner, M., & Elbert, M. May 1988, 211-218.

An evaluation of recent trends in preschool programming for hearing-impaired children. Musselman, C. R., Lindsay, P. H., & Wilson, A. K. Feb. 1988, 71-88.

Factors associated with dysphonia in high school cheerleaders. Campbell, S. L., Reich, A. R., Klockars, A. J., & McHenry, M. A. May 1988, 175-185.

Listeners' perceptions of consonants produced by esophageal and tracheoesophageal talkers. Doyle, P. C., Danhauer, J. L., & Reed, C. G. Nov. 1988, 400-407.

Perception and production of the final /s-ts/ contrast in Dutch by misarticulating children. Raaymakers, E. M. J. A., & Crul, Th. A. M. Aug. 1988, 262-270.

Phonetic inventories of 2- and 3-year-old children. Dyson, A. T. Feb. 1988, 89-93.

Questions about oropharyngeal motor development in young children. Dworkin, J. P., & Culatta, R. Nov. 1988, 483-485.

Reply to "Questions about oropharyngeal motor development in young children." Robbins, J., & Klee, T. Nov. 1988, 485-486.

Acoustic Measures of Speech and Voice

Acoustic and perceptual measurements of roughness influencing judgments of pitch. Wolfe, V. I., & Ratusnik, D. L. Feb. 1988, 15-22.

The effects of three feedback modes on the ability of normal geriatric individuals to match speaking rate. Hyland, J. D., & Weismer, G. Aug. 1988, 271-279.

Speech segment durations produced by healthy and asthmatic subjects. Lee, L., Chamberlain, L. G., Loudon, R. G., & Stemple, J. C. May 1988, 186-193.

Intervention

Acoustic phonetic effects of two types of verbal feedback in dysarthric subjects. Till, J. A., & Toye, A. R. Nov. 1988, 449-458.

Apraxia of speech: The effectiveness of a treatment regimen. Dworkin, J. P., Abkarian, G. G., & Johns, D. F. Aug. 1988, 280-294.

Efficacy of a distinctive feature model of therapy for hearing-impaired adolescents. Subtelny, J., & Snell, K. B. May 1988, 194-201.

Evaluating the treatment effect of repeated probes. Winner, M., & Elbert, M. May 1988, 211-218.

An evaluation of recent trends in preschool programming for hearing-impaired children. Musselman, C. R., Lindsay, P. H., & Wilson, A. K. Feb. 1988, 71-88.

Listeners' perceptions of consonants produced by esophageal and tracheoesophageal talkers. Doyle, P. C., Danhauer, J. L., & Reed, C. G. Nov. 1988, 400-407.

Long-term treatment of severe dysarthria: A case study. Simpson, M. B., Till, J. A., & Goff, A. M. Nov. 1988, 433-440.

Within-clinic versus outside-of-clinic self-monitoring of articulation to promote generalization. Koegel, R. L., Koegel, L. K., Van Voy, K., & Ingham, J. C. Nov. 1988, 392-399.

Instrumentation for Diagnosis, Treatment, and Research

The effects of three feedback modes on the ability of normal geriatric individuals to match speaking rate. Hyland, J. D., & Weismer, G. Aug. 1988, 271-279.

Listeners' perceptions of consonants produced by esophageal and tracheoesophageal talkers. Doyle, P. C., Danhauer, J. L., & Reed, C. G. Nov. 1988, 400-407.

Long-term treatment of severe dysarthria: A case study. Simpson, M. B., Till, J. A., & Goff, A. M. Nov. 1988, 433-440.

ALARYNGEAL SPEECH

Listeners' perceptions of consonants produced by esophageal and tracheoesophageal talkers. Doyle, P. C., Danhauer, J. L., & Reed, C. G. Nov. 1988, 400-407.

THE PERCEPTION-PRODUCTION LINK

Perception and production of the final /s-ts/ contrast in Dutch by misarticulating children. Raaymakers, E. M. J. A., & Crul, Th. A. M. Aug. 1988, 262-270.

PROFESSIONAL AND GENERAL SCIENTIFIC ISSUES

PROFESSIONAL AFFAIRS

Service Provision Models and Problems

Within-clinic versus outside-of-clinic self-monitoring of articulation to promote generalization. Koegel, R. L., Koegel, L. K., Van Voy, K., & Ingham, J. C. Nov. 1988, 392-399.

Research Issues and Methodology

Bone conduction threshold levels for different bone vibrator types. Frank, T., Byrne, D. C., & Richards, L. A. Aug. 1988, 295-301.

A critique of continuous discourse tracking as a test procedure. Tye-Murray, N., & Tyler, R. S. Aug. 1988, 226-231.

Inexact use of "disfluency" and "dysfluency" in stuttering research. Quesal, R. W. Aug. 1988, 349-350.

Science and communication disorders: A reply to Bloodstein. Siegel, G. M. Aug. 1988, 348-349.

PROFESSIONAL TRAINING

Education and Continuing Education

A new perspective in evaluating clinical effectiveness: The UWO Clinical Grading System. Johnson, C. J., & Shewan, C. M. Aug. 1988, 328-340.

Clinical Supervision and Interaction

An analysis of commitments made by student clinicians in speech-language pathology and audiology. Shapiro, D. A., & Anderson, J. L. May 1988, 202-210.

A new perspective in evaluating clinical effectiveness: The UWO Clinical Grading System. Johnson, C. J., & Shewan, C. M. Aug. 1988, 328-340.

TITLE INDEX

Acoustic and perceptual measurements of roughness influencing judgments of pitch. Wolfe, V. I., & Ratusnik, D. L. Feb. 1988, 15-22.

Acoustic phonetic effects of two types of verbal feedback in dysarthric subjects. Till, J. A., & Toye, A. R. Nov. 1988, 449-458.

Acquisition of spoken and signed English by hearing-impaired children of hearing-impaired or hearing parents. Geers, A. E., & Schick, B. May 1988, 136-143.

An analysis of commitments made by student clinicians in speech-language pathology and audiology. Shapiro, D. A., & Anderson, J. L. May 1988, 202-210.

Apraxia of speech: The effectiveness of a treatment regimen. Dworkin, J. P., Abkarian, G. G., & Johns, D. F. Aug. 1988, 280-294.

Bone conduction threshold levels for different bone vibrator types. Frank, T., Byrne, D. C., & Richards, L. A. Aug. 1988, 295-301.

Cohesion in the narratives of good and poor readers. Norris, J. A., & Bruning, R. H. Nov. 1988, 416-424.

Communication breakdowns in normal and language learning-disabled children's conversation and narration. MacLachlan, B. G., & Chapman, R. S. Feb. 1988, 2-7.

Comprehension of monologues and dialogues by aphasic listeners. Katsuki-Nakamura, J., Brookshire, R. H., & Nicholas, L. E. Nov. 1988, 408-415.

Correlations between hearing thresholds and caloric responses among a heterogeneous sample of dizzy patients. Formby, C., Hixson-Robles, C., & Singleton, G. T. Feb. 1988, 65-70.

A critique of continuous discourse tracking as a test procedure. Tye-Murray, N., & Tyler, R. S. Aug. 1988, 226-231.

Description of laryngeal pathologies by age, sex, and occupation in a treatment-seeking sample. Herrington-Hall, B. L., Lee, L., Stemple, J. C., Niemi, K. R., & McHone, M. M. Feb. 1988, 57-64.

Developmental phonology: 18–29 months. Preisser, D. A., Hodson, B. W., & Paden, E. P. May 1988, 125-130.

Dysfluency isn't always stuttering. Culatta, R., & Leeper, L. Nov. 1988, 487-488.

The effects of three feedback modes on the ability of normal geriatric individuals to match speaking rate. Hyland, J. D., & Weismer, G. Aug. 1988, 271-279.

Efficacy of a distinctive feature model of therapy for hearing-impaired adolescents. Subtelny, J., & Snell, K. B. May 1988, 194-201.

Establishment of symbolic communication in persons with severe retardation. Romski, M. A., Sevcik, R. A., & Pate, J. L. Feb. 1988, 94-107.

Evaluating the treatment effect of repeated probes. Winner, M., & Elbert, M. May 1988, 211-218.

An evaluation of recent trends in preschool programming for hearing-impaired children. Musselman, C. R., Lindsay, P. H., & Wilson, A. K. Feb. 1988, 71-88.

Factors associated with dysphonia in high school cheerleaders. Campbell, S. L., Reich, A. R., Klockars, A. J., & McHenry, M. A. May 1988, 175-185.

Fluharty Preschool Speech and Language Screening Test: Analysis of construct validity. Simmons, J. O. May 1988, 168-174.

A follow-up study of children with phonologic disorders of unknown origin. Shriberg, L. D., & Kwiatkowski, J. May 1988, 144-155.

Identification of correct and misarticulated semivowels. Chaney, C. Aug. 1988, 252-261.

Improving the social-conversational skills of developmentally delayed children: An intervention study. Girolametto, L. E. May 1988, 156-167.

Inexact use of "disfluency" and "dysfluency" in stuttering research. Quesal, R. W. Aug. 1988, 349-350.

Infant tympanometry: Differential results by race. Robinson, D. O., Allen, D. V., & Root, L. P. Aug. 1988, 341-346.

Ipsilateral acoustic-reflex adaptation testing for detection of facial-nerve pathology: Three case studies. Silman, S., Silverman, C. A., Gelfand, S. A., Lutolf, J., & Lynn, D. J. Nov. 1988, 378-382.

Listeners' perceptions of consonants produced by esophageal and tracheoesophageal talkers. Doyle, P. C., Danhauer, J. L., & Reed, C. G. Nov. 1988, 400-407.

Long-term treatment of severe dysarthria: A case study. Simpson, M. B., Till, J. A., & Goff, A. M. Nov. 1988, 433-440.

Longitudinal changes in auditory discrimination in normal children and children with language-learning problems. Elliott, L. L., & Hammer, M. A. Nov. 1988, 467-474.

Nasal consonants in esophageal speech. Miller, W. L., & Hamlet, S. L. Feb. 1988, 108-111.

A new perspective in evaluating clinical effectiveness: The UWO Clinical Grading System. Johnson, C. J., & Shewan, C. M. Aug. 1988, 328-340.

Normal language skills and normal intelligence in a child with de Lange syndrome. Cameron, T. H., & Kelly, D. P. May 1988, 219-222.

Object transformations in the play of language-impaired children. Terrell, B. Y., & Schwartz, R. G. Nov. 1988, 459-466.

Otitis media and language development at 1 year of age. Wallace, I. F., Gravel, J. S., McCarton, C. M., & Ruben, R. J. Aug. 1988, 245-251.

Otitis media in early childhood and its relationship to later phonological development. Roberts, J. E., Burchinal, M. R., Koch, M. A., Footo, M. M., & Henderson, F. W. Nov. 1988, 424-432.

Patterns of discourse cohesion and coherence in Alzheimer's disease. Ripich, D. N., & Terrell, B. Y. Feb. 1988, 8-15.

Patterns of language comprehension deficit in abused and neglected children. Fox, L., Long, S. H., & Langlois, A. Aug. 1988, 239-244.

Perception and production of the final /s-ts/ contrast in Dutch by misarticulating children. Raaymakers, E. M. J. A., & Crul, Th. A. M. Aug. 1988, 262-270.

Performance Inventory for Profound and Severe Loss (PIPSL). Owens, E., & Raggio, M. Feb. 1988, 42-56.

Phonetic inventories of 2- and 3-year-old children. Dyson, A. T. Feb. 1988, 89-93.

Phonological and spatial processing abilities in language- and reading-impaired children. Kamhi, A. G., Catts, H. W., Mauer, D., Apel, K., & Gentry, B. F. Aug. 1988, 316-327.

Prelinguistic vocalizations of hearing-impaired and normally hearing subjects: A comparison of consonantal inventories. Stoel-Gammon, C. Aug. 1988, 302-315.

The prevalence of stuttering in the hearing-impaired school age population. Montgomery, B. M., & Fitch, J. L. May 1988, 131-135.

Proportional and functional analogical reasoning in normal and language-impaired children. Nippold, M. A., Erskine, B. J., & Freed, D. B. Nov. 1988, 440-448.

Questions about oropharyngeal motor development in young children. Dworkin, J. P., & Culatta, R. Nov. 1988, 483-485.

Referential communication by aphasic and nonaphasic adults. Busch, C. R., Brookshire, R. H., & Nicholas, L. E. Nov. 1988, 475-482.

Reply to "Questions about oropharyngeal motor development in young children." Robbins, J., & Klee, T. Nov. 1988, 485-486.

Response to Quesal: Terminology in stuttering research. Bernstein Ratner, N. E. Aug. 1988, 350-351.

Responses to requests for clarification by linguistically normal and language-impaired children in conversation. Brinton, B., Fujiki, M., & Sonnenberg, E. A. Nov. 1988, 383-391.

Science and communication disorders: A reply to Bloodstein. Siegel, G. M. Aug. 1988, 348-349.

Science in communication disorders: Letter to the editor. Bloodstein, O. Aug. 1988, 347-348.

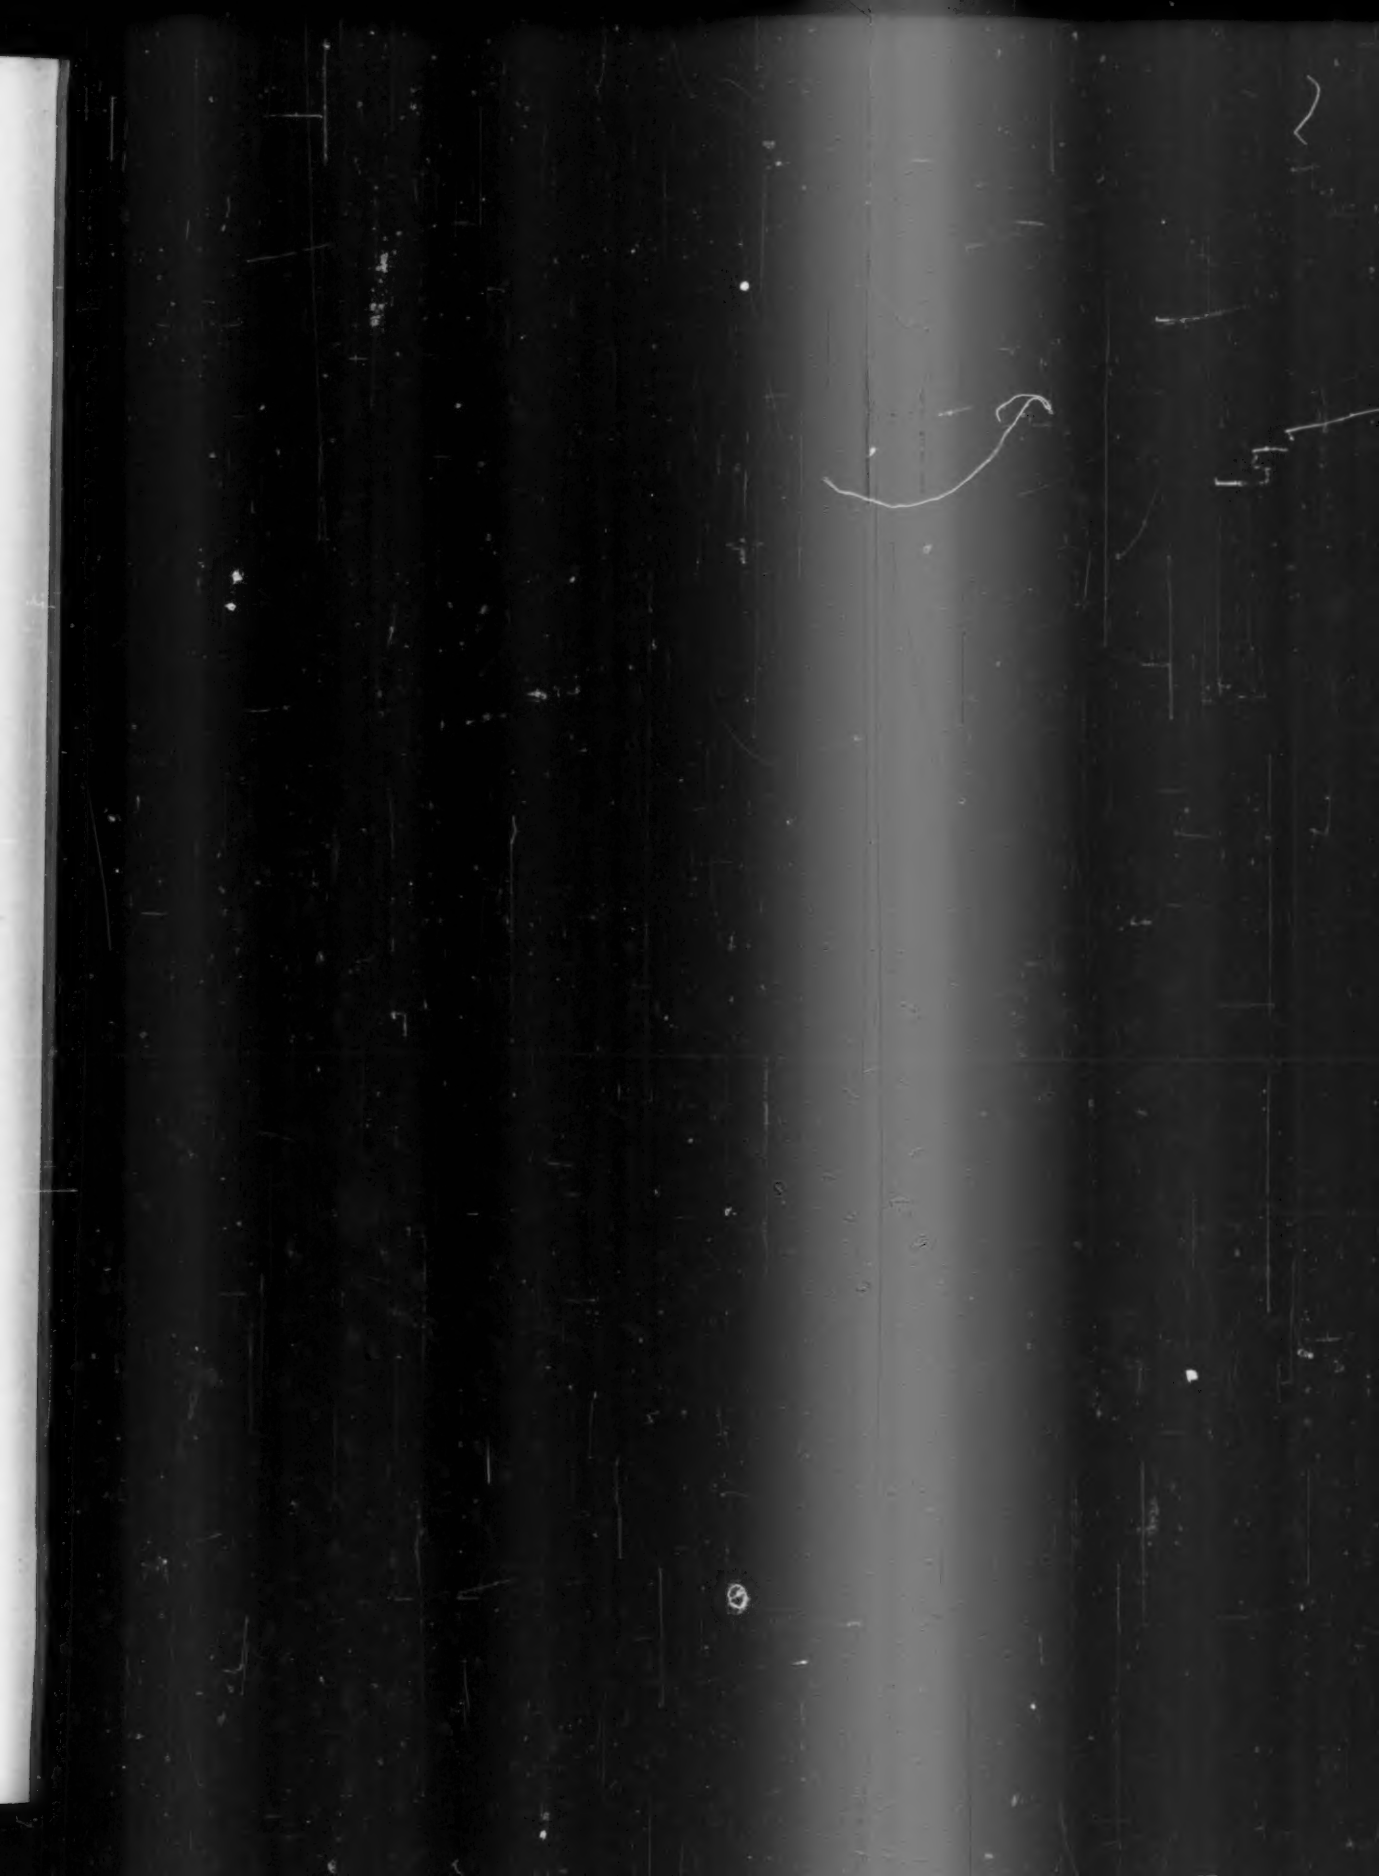
Specialized cognitive function and reading achievement in hearing-impaired adolescents. Craig, H. B., & Gordon, H. W. Feb. 1988, 30-41.

Speech production following partial glossectomy. Fletcher, S. G. Aug. 1988, 232-238.

Speech segment durations produced by healthy and asthmatic subjects. Lee, L., Chamberlain, L. G., Loudon, R. G., & Stemple, J. C. May 1988, 186-193.

Tone in Thai alaryngeal speech. Gandour, J., Weinberg, B., Petty, S. H., & Dardarananda, R. Feb. 1988, 23-29.

Tympanometry. Shanks, J. E., Lilly, D. J., Margolis, R. H., Wiley, T. L., & Wilson, R. H. Nov. 1988, 354-377.

Variations in aphasic language behaviors. Glosser, G., Wiener, M., & Kaplan, E. May 1988, 115-124.


Within-clinic versus outside-of-clinic self-monitoring of articulation to promote generalization. Koegel, R. L., Koegel, L. K., Van Voy, K., & Ingham, J. C. Nov. 1988, 392-399.
